

Gas Saver 007

954-905-6163

JAR Investments of Florida Inc.

Jorge H.

ADVANTAGES TO HAVING US HELP YOU SAVE FUEL!

- **Possibly double your mileage:** Our road tests have achieved 50% increase on a heavy 350 V8 van, 56% on a Ford truck, 107% on my Toyota Corolla, 285% on a Chevy 4WD pickup (this is not a typo). Carter Blankenship III is saving \$200-\$400 EVERY WEEK on his big rig diesel truck.
- **Clean up emissions that damage your health and the health of your family.** When burned, the "Brown's Gas" we produce turns right back into water! No harmful chemicals are emitted from this system. Since your engine would take LESS gasoline and **BURN IT MORE COMPLETELY**, the overall effect is dramatic reduction in harmful emissions. You'll be able to smell the difference.
- **Greatly enhance engine power and performance.**
- **Remove carbon deposits and prevent future carbon build up.** That's why many drivers report a smoother operation.
- **Reduce engine temperature - protect your environment and your engine.** Prevent global warming while you drive.
- **You will notice a**

Run Your Car on WATER
and Gas to **Double** Mileage!

Turn your car into a water-burning hybrid!
Conversion works on 99.9% of Motor Vehicles.

- ▶ Are you **TIRED** of high gas prices?
- ▶ Want to **DOUBLE** your gas mileage?
- ▶ Want a **CLEANER** emissions Vehicle?

calmer, quieter and much smoother engine & gearshifts. This is due to the effect water has on the combustion cycle inside your engine.

- **Enjoy a longer life expectancy of your engine, especially pistons, valves, rings and bearings.**
- I, We must turn this clock backwards! Let's eliminate harmful exhaust emission that pollute the environment and contribute to global warming.
- **Reduce petroleum demand and our economical dependability.** Water is available everywhere and we need very little of it for the family car or company truck.

- **Reduce engine operating temperatures** - also helps to prevent global warming.

- *Your clean-burning fuel will add only water and oxygen into the atmosphere instead of polluting it.*
